

Report of the statutory auditor

to the Board of Directors of Multitude AG, Zug, Switzerland

Report on the audit of the consolidated financial statements and of the group management report

Opinions

We have audited the consolidated financial statements of Multitude AG (the Company) and its subsidiaries (the Group), which comprise the consolidated statement of profit or loss and the consolidated statement of comprehensive income for the year ended 31 December 2024, the consolidated statement of financial position as at 31 December 2024, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including material accounting policy information. In addition, we have audited the group management report of Multitude AG, which is combined with the Company's management report, for the financial year from 1 January to 31 December 2024. In accordance with the German legal requirements, we have not audited the content of those parts of the group management report listed in the "Other Information" section of our auditor's report.

In our opinion,

- the accompanying consolidated financial statements (pages 80 to 190) give a true and fair view of the consolidated financial position of the Group as at 31 December 2024 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as adopted by European Union (EU-IFRS) and comply with Swiss law, and
- the accompanying group management report (pages 216 to 265) as a whole provides an appropriate view of the Group's position. In all material respects, this group management report is consistent with the consolidated financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the group management report does not cover the content of those parts of the group management report listed in the "Other Information" section of our auditor's report.

Pursuant to § [Article] 322 Abs. [paragraph] 3 Satz [sentence] 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the consolidated financial statements and of the group management report.

Basis for opinions

We conducted our audit of consolidated financial statements in accordance with Swiss law, International Standards on Auditing (ISA) and Swiss Standards on Auditing (SA-CH) as well as the audit of the group management report in accordance with German IDW Assurance Standard: Assurance on the management report as part of the audit of the financial statements (IDW AuS 350 revised) promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those provisions and standards are further described in the 'Auditor's responsibilities for the audit of the consolidated financial statements and of the group management report' section of our report. We are independent of the Group in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, as well as the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the consolidated financial statements and on the group management report.

Our audit approach

Overview

Overall group materiality: EUR 1'938'000

We audited the parent company, and we performed audit procedures related to nine significant subsidiaries. This resulted in a full scope audit on entities contributing 78% to total Group's assets and audit of financial statement line items (FSLI) on entities contributing 8% to total Group's assets. Furthermore, we performed audit procedures centrally on certain FSLI for other entities due to risk or size. Where the risk is concentrated to a limited number of assertions, we have instructed component auditors to report on a specified procedure basis. Finally, we conducted audit procedures centrally for the consolidation, disclosures, and presentation of the consolidated financial statements as part of our group audit activities.

As key audit matter the following area of focus has been identified: Adequacy of expected credit loss allowance on loans to customers

Materiality

The scope of our audit was influenced by our application of materiality. Our audit opinion aims to provide reasonable assurance that the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the consolidated financial statements as a whole.

Overall group materiality	EUR 1'938'000
Benchmark applied	Net assets
Rationale for the materiality benchmark applied	We chose net assets as a benchmark because, in our view, they are a key indicator used when assessing drivers of the business and determinants of the Multitude AG Group's profit potential as well as the solvency and stability of the Group. Net assets also reflect the Group's ability to meet its debt covenants and is of major relevance for economic decisions made by the Board of Directors, management and investors.

We agreed with the Audit Committee that we would report to them misstatements above EUR 97'000 identified during our audit as well as any misstatements below that amount which, in our view, warranted reporting for qualitative reasons.

Audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, complexity and risks of individual subsidiaries, the accounting processes and controls, and the industry in which the Group operates.

We designed our audit by determining materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where subjective judgements were made; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Using these criteria, we selected companies and accounts into our Group audit scope and at the same time ensured that we get sufficient coverage to our audit, in order to issue an audit opinion for the Group. We determined the type of work that needed to be performed at Group companies by us, as the group engagement team, or by auditors from other PwC network firms operating under our instruction and supervision. Audits were performed in Group companies which are considered significant either because of their individual financial significance or due to their specific nature, covering the vast majority of revenue, assets and liabilities of the group. Selected specified procedures as well as analytical procedures were performed to cover the remaining companies.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Adequacy of expected credit loss allowance on loans to customers

Key audit matter	How our audit addressed the key audit matter
<p>As of 31 December 2024, the Group's net loans to customers amounted to EUR 650 million, representing 59% of total assets. Loans to customers are measured at amortised cost using the effective interest method as described in Note 2 to the consolidated financial statements.</p> <p>Further, as described in Note 4, the Group's allowance for expected credit losses ("ECL") on loans to customers was EUR 139 million as of 31 December 2024.</p> <p>Due to the significant judgement and estimation by management in developing future macroeconomic scenarios and related probability weights, a high degree of auditor judgement, subjectivity, and effort in performing procedures and evaluating audit evidence obtained, and the audit effort involved the use of professionals with specialized skills and knowledge, we consider the adequacy of expected credit loss allowance as key audit matter.</p> <p>Credit loss allowances relating to retail loans to customers in the group's lending portfolio (Stages 1-3) are determined on a collective portfolio basis and are calculated as a function of the probability of default ("PD"), the exposure at default ("EAD") and the loss given default ("LGD") as well as the timing of the loss.</p> <p>The Group's management uses a complex model and makes significant assumptions about customer payment</p>	<p>Our approach to addressing this key audit matter included the following procedures:</p> <ul style="list-style-type: none"> • Understanding and testing the design and effectiveness of key management controls over ECL assumptions applied in the ECL model, • Evaluating the appropriateness of the model methodologies used to determine the expected credit loss allowance, • Testing the completeness and accuracy of data used in the estimate, • Testing the reasonableness and accuracy of historical PDs and forward-looking macro-economic adjustments for different credit products by involving IFRS 9 and modelling experts, • Testing the determination of the definition of default, SICR and UTP and challenging the reasonableness of the quantitative criteria for the definition of SICR and determination of the definition of default on the basis of credit history of the particular products and territory, • Challenging the reasonableness of the assumptions used in the determination of the LGD, particularly loan sales price assumptions and the estimated time to recovery, and • For a sample of products and territories, performing a full recalculation of the ECL for the purpose of determining the accuracy of the overall ECL result.

behaviour, whether it gives rise to significant increase in credit risk ("SICR") or unlikelihood to pay ("UTP") and future conditions. The estimation and application of forward-looking information requires a combination of expert judgement and quantitative analysis. The scenarios are probability-weighted according to management's best estimate of their relative likelihood based on historical frequency, an assessment of the current business and credit cycles as well as the macroeconomic factor trends.

The Group also originates loans to corporate entities which are considered to be individually significant. Whilst forming part of the Group's loans to customers, such loans, given the distinct inherent nature, are assessed and managed separately. These exposures are evaluated and assessed at inception in order to determine the credit quality of the exposure and potential credit risks that may arise. These exposures are principally secured by a number of loan portfolios which are pledged in favour of the Group, and are subject to a number of covenants including predetermined ratios of aging portfolios and advance rates. Such covenants are monitored on a regular basis by management and the Investments Committee. Moreover, the Group also has additional collateral in the form of cash deposited in its accounts and/or pledged financial instruments in its favour in respect of a number of these exposures. Additionally, these exposures encompass several clauses and covenants structured in a way which enable an effective management of credit risk.

The procedures included the use of our experts with specialized skills and knowledge to assist in evaluating the appropriateness of model methodologies and to assist in evaluating the audit evidence.

Finally, we assessed the appropriateness of disclosures made in the consolidated financial statements in relation to ECL and the inherent judgements involved.

Other information

The Board of Directors is responsible for the other information.

The other information comprises the following non-audited parts of the group management report:

- the statement on corporate governance pursuant to § [Article] 289f HGB [Handelsgesetzbuch: German Commercial Code] and § 315d HGB included in section "9 Consolidated corporate governance statement" of the group management report
- the non-financial statement to comply with §§ 315b to 315c HGB included in section "10 Non-financial statement" of the group management report.

The other information comprises further the information included in all remaining parts of the annual report, but does not include the separate financial statements, the consolidated financial statements, the group management report, the remuneration report and our auditor's reports thereon.

Our opinions on the consolidated financial statements and the group management report do not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the group management report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, with the group management report disclosures audited in terms of content or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the consolidated financial statements and the group management report

The Board of Directors is responsible for the preparation of consolidated financial statements, that give a true and fair view in accordance with IFRS Accounting Standards adopted by EU and the provisions of Swiss law, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Furthermore, the Board of Directors is responsible for the preparation of the group management report that, as a whole, provides an appropriate view of the Group's position and is, in all material respects, consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the Board of Directors is responsible for such arrangements and measures (systems) as it has considered necessary to enable the preparation of a group management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the group management report.

Auditor's responsibilities for the audit of the consolidated financial statements and of the group management report

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the group management report as a whole provides an appropriate view of the Group's position and, in all material respects, is consistent with the consolidated financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the consolidated financial statements and on the group management report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit of consolidated financial statements conducted in accordance with Swiss law, ISA, and SA-CH and an audit of the group management report conducted in accordance with IDW AuS 350 revised will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and this group management report.

As part of an audit of consolidated financial statements in accordance with Swiss law, ISA, and SA-CH and an audit of the group management report conducted in accordance with IDW AuS 350 revised, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and of the group management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the consolidated financial statements and of arrangements and measures (systems) relevant to the audit of the group management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control and these arrangements and measures (systems), respectively.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and in the group management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a

manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming opinions on the consolidated financial statements and on the group management report. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinions.
- Evaluate the consistency of the group management report with the consolidated financial statements, its conformity with German law, and the view of the Group's position it provides.
- Perform audit procedures on the prospective information presented by the Board of Directors in the group management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the Board of Directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them regarding all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors or its relevant committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In accordance with article 728a para. 1 item 3 CO and PS-CH 890, we confirm the existence of an internal control system that has been designed, pursuant to the instructions of the Board of Directors, for the preparation of the consolidated financial statements.

Our original statutory auditor's report on the consolidated financial statements dated 17 April 2025 (refer to section below) included a recommendation that the consolidated financial statements submitted to the General Meeting to be approved. The General Meeting on 13 May 2025 approved these consolidated financial statements. Our recommendation is not affected by this supplementary audit.

Note on supplementary audit

We issue this auditor's report on the consolidated financial statements and the subsequently prepared group management report on the basis of our audit.

With regards to the consolidated financial statements, we have issued our original statutory auditor's report on the consolidated financial statements on 17 April 2025. This auditor's report is neither impacting nor replacing the original statutory auditor's report on the consolidated financial statements dated 17 April 2025.

In addition to the preceding paragraph, we have completed our supplementary audit as at 21 August 2025 related to the subsequently prepared group management report. We refer to the presentation of the subsequent preparation of the group management report by the Board of Directors in section "1 Introduction" of the combined management report.
